PROFILE

Self-taught executive with 20 years in IT and 18 in the courier industry. I grew from the complaints desk at Nemo Express to CIO, then worked on the platform side of delivery at Colete Online and Innoship. Since 2024 I have been Executive Director of DSC Dragon Star Curier, with IT and Development under my remit. I lead the teams and I also build the software: the in-house platform, the company website, and products for other businesses.

EXPERIENCE

Executive Director
2024 to present

DSC Dragon Star Curier Bucharest

- Direct the company, with IT and Development reporting to me.
- Built DSC-Utils, the in-house platform: cash-on-delivery settlement validation against bank deposits, hub routing and zone mapping, hub and courier performance reports, lost-client analysis and client notification campaigns through Mailgun.
- Rebuilt the public website on the company CMS: network map with 5 hubs and every agency, online booking with an AWB label by email, tracking and pricing panels, a fuel index page and an SEO page for each agency.
- Built Flota DSC, the fleet management app: vehicles, drivers, documents with expiry alerts, service, fuel and operating costs.

IT and Operations
2023 to 2024

Innoship Bucharest

- IT and operations for a multi-carrier delivery platform that connects shippers to many couriers at once.

IT and Operations
2022 to 2023

Colete Online Bucharest

- IT and operations for an online courier booking platform.

Chief Information Officer
Jan 2021 to Sep 2022

Nemo Express Măgurele

- Managed the IT and development team.
- Kept systems and procedures aligned with business goals.
- Implemented and ran the Mediatel call and contact center; ran the Courier Manager postal software.

SKILLS

Leadership

IT and development teams, project scope and stakeholders, customer support operations, hiring and performance reviews

Software

Python, Flask, HTMX, SQLAlchemy, PostgreSQL, SQL reporting, PHP, WordPress and WooCommerce, Mailgun, RO e-Factura

Courier

End-to-end operations, POD and archive workflows, hub routing, data migration between platforms

Courier Manager, Mediatel, Live Agent, Qlik Sense, ChronoScan, MS Office

SELECTED PROJECTS

ServiceHub
2026, in testing

Multi-tenant management app for car repair shops: work orders on Kanban, appointments, stock, invoicing with RO e-Factura (ANAF), reminders.

New4you.ro
2026

Online store migrated from OpenCart to WooCommerce with a custom theme, automated data migration and 301 redirects.

Willy Car Service
2026

Presentation website for a car repair shop in Domnești.

Project Manager

Jun 2019 to Jan 2021

Nemo Express Măgurele

- Implemented the Courier Manager software, coordinating internal teams and third parties.
- Defined scope and objectives with all stakeholders and secured technical feasibility and resources.
- Customized the system and migrated the data from the legacy database.
- Managed the development backlog, the project team and reporting to management.

Customer Support Manager and earlier roles

Apr 2008 to 2019

Nemo Express Măgurele

- Customer Support Manager: ran the department day to day, escalations, support policies, statistics and reports, hiring and performance reviews. Implemented Live Agent.
- POD Coordinator: led the POD team, scanning procedures and the POD archive database; introduced new hardware and software.
- Customer service roles from 2008: complaints handling, inbound calls, account relationships.

Network Manager

Jan 2006 to Jan 2008

Inttel Connect Bucharest

- Local network management, implementation and troubleshooting; client support.
